Object:	Kafana and vantage point in Babića Bašča in winter
Description:	View of the kafana and vantage point on Babića bašča hill, extending to the Bijela tabija fort and the mountains beyond, all covered with snow, on a slightly cloudy winter day. The kafana includes a gazebo with a tiled roof and a garden terrace with a large gate.
Comment:	The picture is taken from the same spot as siba.4885. The winter version clearly shows that the hill has been levelled to build the restaurant. Analogue photographic process, negative-positive (Agfa Isopan 17 DIN). Original preserved as a negative-diptych, stored as a negative and a digital record.
